Career Objective

Driven engineer seeking ISRO internship to leverage strong work ethic & technical skills. Eager to learn & contribute innovative ideas in a challenging environment. Committed to enhancing space technology knowledge & supporting ISRO's mission.

Education

BE Bapuji Institute of Engineering & Technology, Davangere.

Visvesvaraya Technological University,
Belgaum.

Percentage/CGPA : 9.25(Till 5th Sem)

Nov 2021 to Nov 2025

PUC Science Academy PU College, Davangere.

Department of Pre-university Education.

Percentage/CGPA : 95.6%

Jun 2019 to Jul 2021

SSLC DRR High School, Davangere.

Karnataka Board of Secondary Education.

Percentage/CGPA : 91.7%

Jun 2018 to Apr 2019

About Me

Driven Information Science & Engineering student (Year 3) with a passion for space technology. Possess strong problem-solving skills and a solid foundation in Java and web development. Eager to contribute my programming expertise and adaptability to organisation's dynamic environment, actively learning from experts and bringing fresh perspectives.

Technical Skills

- Programming Language : C, Java, Basic in Python
- Databases : MySQL
- Web Design : HTML, Basic in JavaScript, Figma(s/w)
- Operating System : Windows XP/11

Projects

• Project 1 : Ticket Booking System

Title : Online Airline Ticket Booking System

Tecnology : Java, JSP, MySQL

Developed a full-stack Airline Ticket Booking System leveraging Java (JDBC, JSP, Servlets) to seamlessly perform CRUD operations on bookings and enhance the maintainability and MySQL database for easy and secure storage of booking info

github.com/varun066/FullStack_Project_Airline_Ticket_Booking_System

• Project 2 : justi5 App

Smart India Hackathon 2023

Role : Team Member, Designing

Platform : Figma

Cross-platform app for onboarding legal service providers in India (SIH PROJECT) Technology Used: Flutter and Dart for front-end development, with Supabase and Firebase for the database.

Certifications

"2023 Complete Java Programming Master class updated to java 17" by Tim Butchalka, Tim Butchalka's Learn Programming Academy.

"Google UI/UX Design Course" by Google Mentors with Google Career Certificates Program.

Awards & Other Skills

- Awarded as "Design Secretary" for the intra-college festival "Davana 2023".
- Successfully organized the technical events in the department such as BitsNBytes twice which fostered management abilities.

Skills and Proficiencies

Effective Team Collaboration

- Contributed seamlessly to a multidisciplinary team during the SIH project, playing a key role in designing a user-friendly legal service provider onboarding app.
- Successfully participated and achieved victories in diverse inter-college coding competitions, highlighting problem-solving abilities and critical thinking.
- Collaborated efficiently with both large and small teams on DBMS and web development projects.

Proven Leadership Abilities

- Currently serve as a core member and Design Head of Byte Brigade, a student organization focused on coding and technology.
- Successfully spearheaded event organization, including the well-received inter-college coding competition "BitsNBytes," cultivating a collaborative coding culture.

Declaration

I affirm that all the information provided above is accurate to the best of my knowledge, and take full responsibility for the authenticity of the details mentioned.

Your's Faithfully
